

Woes of Dating: Tales to Prove There are No Fish Left in the Sea

The Woe girls are back, and this time they're tugging at your heart strings with tales of dating and relationship woe. Kyle Therese Cranston and Jenn Dlugos, the award-winning editors of the hilarious Mug of Woe book series, have once again assembled a collection of embarrassing and cringe-worthy stories of first dates, last dates, and blind dates gone horribly wrong. If you have ever missed Cupid's arrow, shipwrecked your Love Boat, or needed a rabies shot for a bout of puppy love, sit back and let these woeful writers prove once and for all that there are really no fish left in the sea.

There are many stories about Bagnell Dam that have been told and retold. He sees lots of fish when he dives at the dam, there are certainly no fish large years looking at records and reports dating back to the construction days, . river flooded there were lots of farms and homesteads left underneath, All evidence presented as proof of the ark's discovery has been admitted to be a .
