Read Danica McKellar's posts on the Penguin Blog. The New York Times bestseller—from the Dancing With The Stars contestant and popular author of *Math Doesn't Suck*, *Hot X: Algebra Exposed*, and *Girls Get Curves*—teaches girls how to kick pre-algebra butt. In her New York Times bestselling books, actress and math genius Danica McKellar shatters the math nerd stereotype and gives girls the tools to ace middle-school math in her unique, just-us-girls style. Now, in her second book, *Kiss My Math*, McKellar empowers a new crop of girls—seventh to ninth graders—to tackle the next level of mathematics: pre-algebra. Stepping up not only the math but the sass and style, McKellar helps math-phobic teenagers moving up into high school chill out and finally get negative numbers, variables, absolute values, exponents, and more. As she did so effectively in *Math Doesn't Suck*, McKellar uses personality quizzes, reader polls, real-life testimonials, and stories from her own life—in addition to clear instruction, helpful tips, and practice problems—revealing why pre-algebra is easier, more relevant, and more glamorous than girls think. McKellar is clearly reaching her audience: parents, teachers, and especially girls are asking for more.

Kiss My Math has 481 ratings and 57 reviews. Sharon said: McKellar got me to do something I thought I would never do - like math! Her lessons are the most.
