

Stroke: Your Questions Answered, 1e

Written in the popular question and answer format of the Your Questions Answered series, this resource provides all of the information primary care providers need to understand stroke and to deliver effective care to stroke patients and those at risk. The information is up to date, evidence-based, and appropriate for sharing with patients and families who wish to learn more about the nature of the disease and the various management options. Answers the questions that are frequently asked by general physicians, neurologists in-training, medical students, stroke patients, caregivers, and the general population. Addresses both commonplace and rarer issues. Covers prevention of secondary stroke. Discusses stroke in special populations (i.e. children, pregnant women). Includes useful information on stroke services, patient support groups, and web sites. Provides references for further reading.
